

➤ USES of the tonneau BAR

● PRIVATE USES ●

1. GROCERIES

NO more scattered groceries falling all over your boot or bin when arriving at home.

- Slide the tonneau BAR through the carry handles of your store bags and secure the tonneau BAR– Groceries can now be carried into your home whilst still attached to tonneau BAR.
- Monthly and/or daily groceries, large loose items, water bottles, gas bottles, 2l cold drinks, firewood, toilet paper, pool chlorine, dogfood, nappies, fruit & veg i.e. potato bags, grocery bags, or any small movable object thinkable will be secured in no time safely.

2. GARDEN & RUBBLE REMOVING

Pack and secure your garden refuse or rubble behind a tonneau BAR before taking it to the rubbish dump. Keeps it all in place before dumping it.

3. PRIVATE MOVING

Whilst renting a trailer and/or using your bakkie to move furniture, appliances, etc. use the tonneau Bar to secure your load/cargo. It has never been this easy to secure in a bin or trailer.

4. SCHOOLS

Securing your kids' suitcases, sports gear & equipment is always an issue, especially in a bakkie bin, where the kids or yourself must climb into the back of your bin to retrieve everything, however when securing it with a tonneau BAR it's all in the past.

5. KINDERGARTEN/CRECHE

Dropping your infants at the crèche and having your baby stuff at bay is a must.

Your nappy bags, camping cot, portable car seat, pram & other baby gear can now be kept in place at a convenient spot to collect while trying to keep your infants safe and close to you.

● COMMERCIAL USES ●

1. GARDEN SERVICES

Secure your lawnmowers & gardening gear to avoid damaging equipment whilst driving in between Customers gardens that need to be serviced and maintained.

2. MINING

All Mines encourages you to keep machinery & equipment like pumps, tools safe in your bin. The tonneau BAR has a quick release system, an added benefit especially for safety in emergency cases.

3. CONSTRUCTION

Ensuring no delays while constructing, with equipment arriving on-site, damaged while not being secured properly. Delays lead to penalties.

4. COURIERS

You do not want your Customers' packages to be damaged whilst being delivered. If packages are not secured properly it can be a very costly exercise and very unhappy Clients.

5. FARMERS

Equipment being moved from one field to another, crops sent to markets, new equipment bought in town, moving feed from one location to another, the tonneau BAR is a necessity for any farmer.

6. PAINTING CONTRACTORS

Avoid paint spills on your bakkie bin. Not securing your paint containers can be very messy and can lead to nasty fines while paint leaks from your bin on government property or for the sake of just removing paint spills on your vehicle.

7. FURNITURE MOVERS

Furniture & appliances can be easily scratched or damaged if not secured properly while on the road, the tonneau BAR can ensure a tight fit while secured.

8. GAS COMPANIES

This is one product that DEFINITELY should be secured, avoiding falling off the bin, which can have devastating consequences. The tonneau BAR will allow a tight fit application avoiding any movement of the gas cylinder.

9. ELECTRICIANS

Keeping your tools; equipment & generators intact instead of moving all over your bin can save you time & money as well as keeping your vehicle damage free.

10. MECHANICS

Collecting all your vehicle service parts for the day, keeping it in place, or collecting your Customer's newly reconditioned engine, will the tonneau BAR ensure a safe & sound delivery to the workshop without any parts being damaged.

11. DELIVERIES

Making any delivery getting your stock intact, makes the tonneau BAR a must-have. No more damaged parcels or unhappy Customers.

12. PLUMBING

Avoiding your plumbing tools and equipment from being scattered all over your Bakkie or Van bin makes your life & work so much easier.

13. CATERERS & HOSPITALITY SERVICES

Keeping your cutlery and crockery containers, chafing dishes, tables, chairs, etc in place before it reaches its destination without any breakages or losses.

14. NURSERIES

Avoid your Customers' plants to arrive looking like they have just been hit by a hurricane.

15. HANDYMAN SERVICES

Knowing where and what tools are on your bakkie bin, can save you time & money. Getting your tools for the job in a quick & easy fashion, to get the job done.

16. FILM AND SOUND INDUSTRY

Sound & film equipment is extremely expensive and can be very costly if not secured properly in your Van, bakkie, or trailer.

17.BASICALLY ANY INDUSTRY

While going through all of the abovementioned industries, we are confident that the tonneau BAR can be of use in your industry too.

● OUTDOOR USES ●

1) CAMPING

Your tent, foldable chairs, suitcases, gas or wood braai's, cooler bags and other camping stuff can now safely be kept in place until your camping destination is reached – HAPPY CAMPING!

2) HUNTING

Keeping the most important thing (Cooler boxes with your drinks) secure is essential ☺ Securing your rifles, ammo, and other accessories with the tonneau BAR will all be in place when you arrive at the game farm and while on the hunt.

3) GOLFING

Do not get annoyed before your 1st T-off. Make use of your tonneau BAR to get to the Golf course or driving range with all your equipment intact.....with the only thing on your mind is to stay calm and playing your best shots ever.

4) 4 X 4

4 X 4-ing is a perfect challenge for the tonneau BAR to keep all your gear in place. Whilst going through the obstacles, your gear will be better secured than yourself behind your seatbelt.

5) ANGLING

You cannot cast your line if your drinks are damaged or broken on arrival, it's a definite no no ☹ Your tonneau BAR will keep your fishing gear & drinks in place, avoiding a negative fishing weekend.

6) LEAVING ON HOLIDAY

Securing your luggage and everything including the kitchen sink, the tonneau BAR will ensure that all your luggage is still in place reaching your destination. Starting your holiday stress free.

● UNUSUAL USES ●

1. Use as a hanging rail for clothing toiletries, towels, biltong, etc endless possibilities.
2. Use as a support beam to hold ceilings in place during installation, keep up broken garage door, etc any support you can most probably think of.
3. Strip pole ☺
4. Use as tent pole when rain lies on and sags the canvas.
5. Use as a walking stick/aid.
6. Splint your leg or any limb during injury.
7. Use as a self-defence weapon.
8. Use as a supporting chair.
9. When your bonnet/boot shock stops working, use it as a replacement.
10. Use as a washing rail.
11. Use as bicycle, bike, 4-wheeler rack.
12. Use as a rifle shooting stick, adjustable to your own shooting height.
13. Attach your small hunting carcass, especially when a shot far from transport was done or antelope ran a mile or two before falling. 2 persons can now carry antelope to bakkie with ease.
14. Use to hang carcass in hunting bush for field dressing.
15. Use as table leg support if a leg is damaged or broken.
